

DIEGO FERREIRA

SENIOR FRONT-END DEVELOPER

Profile Summary

With a Bachelor's degree in Information Systems and **5 years** of experience in the technology market, my focus as a software developer lies in creating front-end solutions for **web** and **mobile**. My expertise primarily revolves around utilizing technologies like **React**, **React Native**, **Javascript**, **Typescript**, **CSS**, **HTML**, and a variety of other tools and libraries.

In addition to writing code with **quality standards**, I always try to maintain its **readability**. I value constant communication and enjoy giving my opinion on everything from design proposals to backend integration contracts. I always seek to be involved in technical and business decisions. In general, I like to feel like an important part of all the projects I work on, and I see this as a way to stay motivated to always deliver the best possible results.
